Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Thursday 16 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
A bright evening, partly cloudy overnight.

This Evening and Tonight:
Dry and bright this evening for most. Thick cloud encroaching into northwestern parts overnight with the odd spot of rain and hill fog. Partly cloudy skies with some clear spells toward the east. Very isolated mist patches in prone spots. Minimum temperature 10 deg C (50 deg F).

Friday:
Any early mist clearing, then another fine and dry day with variable amounts of cloud but also some warm sunny intervals. Perhaps a little breezier than on Thursday. Maximum temperature 21 deg C (70 deg F).

Outlook for Saturday to Monday:
Cloudy start with some rain Saturday, clearing to brighter intervals and heavy showers later. Changeable Sunday and Monday, with plenty of drier weather, but also rain or showers at times.
